VOL. XXII NO. 91

PADUCAH, KY., THURSDAY EVENING, OCTOBER 17, 1907

TEN CENTS PER WEEK

NOBLE BOATWRIGHT DRINKS POISON WHILE BEING LED BY THE POLICE TO THE PATROL

**Was Drinking and Quarreled
With His Sweetheart, Who
Caused His Arrest For Driv-
ing Her From Her Home—
Dies Before Doctor Can Be
Reached**

Despondent from drink and quarrels with his sweetheart, Noble Boatwright, a cooper, killed himself last evening between 7 and 8 o'clock by drinking carbolic acid. He was under arrest when he drank the poison, but patrolmen did not realize his purpose in time to save him. The patrol wagon was summoned and the young man hurried down for medical treatment, but he expired in the patrol wagon before the physicians were reached.

Boatwright had been keeping company with Mrs. Mattie Dickery of 914 Caldwell street, and yesterday while intoxicated he went to her house several times and quarreled with her. Patrolman Henry Singery was summoned and each time expelled the young man from the neighborhood at the request of the woman. Last evening shortly after 6 o'clock Boatwright reappeared and took possession of the woman's house. She went next door and telephoned for the police.

Patrolmen John McCune and Jake Rouse went to the house. They found Boatwright in possession. Placing him under arrest, they started for Backer's grocery, Ninth and Caldwell streets, to await the patrol wagon. While going through the yard Patrolman McCune observed Boatwright take something from his pocket and place it to his lips. When McCune reached his side, Boatwright held a small bottle, which the patrolman knocked from his hand. It was marked "carbolic acid," and when the grocery was reached the young man toppled over and lay on the ground, muttering unintelligibly.

He was placed in the patrol, and at Fourth and Broadway, Dr. Horace T. Rivers made an examination and found life extinct. The body was sent by Coroner Frank Baker to the Mattie-Ebinger morgue.

Noble Boatwright was born in Paducah 31 years ago, and followed the trade of cooper. He had been married to a daughter of William South several years ago. He leaves a mother, Mrs. Fannie Boatwright, who resides with her daughter, Mrs. Charles Schuman, at Lone Oak, three brothers, Messrs. Louis, Frank and John Boatwright, and two sisters, Mrs. Schuman and another in Sherman, Tenn.

Boatwright is said to have been keeping company with the Dickery woman three years. She is a dressmaker, and has sewed for many families in Paducah. When Boatwright began drinking she expelled him from her house. Only two days before Boatwright swallowed the poison she told him that she was going to leave today for the east to reside with relatives.

Patrolman John McCune in handling the bottle got some of the acid on his hands. He secured lotions to counteract the burns and suffered little. Boatwright stole the acid from the mantle in the Dickery woman's house.

Mrs. Dickery Goes Awry.

Today it developed that Boatwright took his own life because Mrs. Dickery was making preparations to leave for Woonsocket, Rhode Island, her brother, Lee Bridges, a well known printer, who formerly worked on Paducah papers, having sent her money to pay her railroad fare to that city. Mrs. Dickery left at noon today for Woonsocket. While talking of the suicide at the station, she said: "Although Boatwright had warned me that if I did not change my mind about going away he would kill himself, I did not believe he meant it. He was not drinking to excess yesterday, but seemed greatly worried and begged me to stay. Finally, he got mad and attacked me. I called the police, and when Mr. Singery came, I asked him to take Boatwright away."

"That was in the afternoon and about 6 o'clock last night he came back and broke in the door. I ran to a neighbor's and called the police. I did not see him take the acid."

Officer Singery and the other police officers say that she begged them not to lock Boatwright up but to keep him away from her house until she could get away from town. Mrs. Dickery has a bright looking little girl about seven years old.

This afternoon at the city hall Coroner Frank Baker is holding an inquest into Boatwright's death.

The coroner's jury brought in a verdict of death by suicide. The funeral is being held this afternoon at the residence of L. J. Ferrar, 1124 South Third street. The

WILL POOL ENGINES.

Effective at once, engines on the Fulton, Paducah and Louisville districts of the Illinois Central, freight service, will be "pooled," and in the move the road hopes to save its engineers. "Pooling" engines is assigning them to engineers in order. "The first in-first out" plan, which has been in force among conductors, will now apply to engineers, who will take out any engine that happens to be ready for service when they are called for their turn, and will not remain with one engine, to go out on it whenever it is ordered out. Engineers have been known to remain on their engines during 200-mile runs in a single day and repeat it the next day. Some engineers have made \$200 and more per month. The new arrangement will cut down engineers' earnings.

JUDGE HUSBANDS WILL BE BURIED FRIDAY AT THREE

The funeral of Hon. Lorenzo Dow Husbands, veteran jurist who died Wednesday afternoon at 3 o'clock of general debility after a lingering illness, will be held Friday afternoon at 3 o'clock at the residence, 935 Jefferson street. The Rev. W. E. Cave will conduct the services. The burial will be in Oak Grove cemetery.

Judge Husbands' fight against death was a remarkable one. For several weeks he lingered in a hopeless condition, rarely gaining consciousness, and twice during his illness he was thought to have died; but stimulants administered by physicians prolonged his life. For the last three days he was kept alive entirely by stimulants.

The Paducah bar association will meet to pass resolutions of respect and honor.

Following are pallbearers selected to attend the body: Active—A. J. Becker, O. L. Gregory, D. H. Hughes, Muscoe Burnett, J. C. Flournoy, T. L. Price, H. B. Phillips and J. D. Moquet.

Honorary—W. M. Reed, William Marble, L. M. Kleck, James Campbell, Sr., E. W. Bagby, J. Q. Taylor, James Collins and W. A. Perry.

WARRANT ISSUED AGAINST O'BRIEN WAREHOUSEMAN

Magistrate Charles W. Emery this morning issued a warrant for the arrest of W. S. O'Brien, manager of a storage warehouse on South Third street, charging him with converting 50 bags of Jupiter brand peanuts to his own use. The warrant was issued on an affidavit made by G. B. Warren, manager of the Seudder-Gale-Warren company, of Cairo, Ill. Warren makes affidavit that 100 bags of peanuts were delivered to the warehouse to be held until ordered delivered by the owners, the Cairo firm, of which he is manager; and that 50 bags were shipped. Subsequently an order for delivery of the remaining 50 bags was made, but O'Brien failed to deliver the goods, saying that he had no peanuts in his possession. The peanuts are valued at \$325.

Mr. O'Brien appeared before Magistrate Emery this morning at 11:30 o'clock, when he heard of the warrant, and surrendered. Mr. A. S. Thompson became his surety, and he will be tried Tuesday morning.

It is stated that O'Brien is innocent of any charge, and that he will show that the Southern Peanut company, which stores peanuts in his warehouse shipped the Cairo firm's peanuts away by mistake.

Grain Market.

Cincinnati, O., Oct. 17.—Wheat, 108; corn, 70 1/2; oats, 56 1/2.

MAJOR AND SWEET MARIE

Poughkeepsie, N. Y., Oct. 17.—Sweet Marie and Major Delmar, trotters, which met at Allentown, Pa., yesterday, where Sweet Marie won easily, will meet again next Tuesday at the Hudson River Driving park here. They will trot a match race

Some Political Gossip of the Local Campaign and What the Committees of Both Parties are Doing

Col. J. E. Potter Gets Another Lemon From Democratic Committee After He Has Been Elected President of the School Board—Charles Graham is Probably Slated for City Auditor if Tom Harrison is Elected—How Committees are Working Since Registration Has Shown Them Where They Stand.

Both parties now have their local tickets full. There were two conspicuous vacancies on the Republican ticket. C. C. Duvall was placed on the ticket in the First ward and T. B. Ford, the well known feed dealer, was nominated to succeed Mr. Samuel Hill, who withdrew from the ticket in the Fifth.

There was only one vacancy on the Democratic ticket. That was in the school board and Mr. Ben Wells was nominated to fill a vacancy in the Second ward, caused by resignation of Ashley Robertson. This nomination rather complicates the school board situation in the Second ward, which has had a hard time keeping a representative on the board. Col. J. E. Potter, president of the board, was elected by the board itself to succeed Mr. Robertson, and his term will expire this fall. It was expected by his friends, of course, when a vacancy occurred on the ticket that he would be given a place; but Mr. Davis is a candidate again and Colonel Potter, with his usual political fortune, is left in the cold.

The City Auditor.

No more important clerical office exists in the city than that of auditor, a position Mr. Alex Kirkland has been filling in a manner to win the admiration of members of the general council, and whoever has occasion to call on that office for information concerning city affairs. The auditor has all fiscal matters at his fingers' ends. Many people have been inquiring who

MASONS PUT BAN ON LIQUOR TRADE IN CONSTITUTION

Louisville, Oct. 17.—(Special.)—By a vote of 420 the Kentucky grand lodge of Masons adopted an amendment to the constitution a resolution offered by James E. Wilhelm, of Paducah, prohibiting the entrance into the order of any person engaged in the liquor business. It becomes effective upon incorporation into the constitution today. All who are making a living out of the sale of liquor are included, meaning distillers and barkeepers. Men employed by distilleries, if not engaged in the actual sale of liquor are not included.

Murray's Lid is On Too Tightly.

Murray, Ky., Oct. 17. (Special.)—The opponents of the law now in force in this city, prohibiting cows from running at large, claim to have won a victory at the recent mass meeting held to nominate a ticket for city council, and say that when the men nominated are elected which is regarded as certain, the obnoxious law will be repealed at the first meeting of the new council. The men nominated for the new council are said to also favor a modification of the present "lid law" in force, which prohibits the sale of any article of merchandise in the city on Sunday. Since the law has been in force it has been impossible to buy even a

WATCH FOR BALLOON.

St. Louis, Oct. 17.—If weather is favorable three balloons will be sent up in a practice trial late this afternoon. J. McCoy and Captain Chandler will ascend for an all night flight in the United States signal service balloon.

D. W. COONS IN WRECK.

Mr. and Mrs. D. W. Coons and Mr. and Mrs. Lawrence Rasoar, formerly of this city, figured in a railroad wreck in the far west but escaped injury. They were en route to Los Angeles, Cal., from Salt Lake City when the train was derailed. They were jolted about but other than bruises were not hurt. The party left here more than a week ago to lo-

could be auditor in case Tom Harrison is elected mayor, and the prevailing opinion is that Charles Graham is slated for that important berth. The most active and enthusiastic supporters Mr. Harrison has are the Grahams and their personal interest in the campaign has done something to create the impression. Certain it is that friends and well wishers of Mr. Kirkland, who have inquired, have been unable to get any satisfaction out of Mr. Harrison, regarding the office.

A Hitter Campaign.

"We have 400 illegal Republican registrations" is the word the Democratic campaign committee is sending out to voters by mail. It is believed this assertion, and editorials in the News-Democrat in the guise of news on the front page, hinting at excessive registration, are designed to create suspicion in the public mind, so that wholesale frauds and intimidations to be resorted to, a la Franklin county, may be accepted as mere "purging" of the registration.

Republican committeemen say they have been exceedingly particular about the Republican vote and have stopped former convicts, who have not been restored to citizenship, in several instances. They also are investigating records, and numerous cases in which ex-convicts are registered as Democrats, will be exposed. Several instances, where voters living on short streets in the outskirts, have confused their numbers have been brought to light, and the committees of both parties will have these matters straightened out before election time.

Both committees will be busy from now on, and this promises to be the best organized campaign ever fought through in this city.

Clem Whittemore Pleased.

Clem Whittemore, formerly of Graves county but now an officeholder at Frankfort under the Beckham administration, who is stationed in Paducah for the campaign, stated this morning that the local situation is entirely satisfactory to him, and expressed confidence in the election of the city ticket.

"The situation in Paducah looks fine and I look for an old-time Democratic majority," he said. "The registration shows a entirely satisfactory and the good lead already shown will be increased by the registration of a number of voters, who were prevented from registering."

Mr. Whittemore is also of the opinion that the Democrats have a splendid organization over the district.

CHARGES FILED BY COMMANDER OF TENDER LILY

Washington, D. C., Oct. 17.—There are indications that somebody wants the scalp of another river pilot, and that there may be a suspension of the pilot's license, as was done after a peremptory order by the president in the case of Capt. Clarence L. Nichols, of the steamboat Fred Hartweg, on Mr. Roosevelt's journey toward the Louisiana cane brakes. Charges have been filed against Capt. Mark Cole, master of the steamer Dick Fowler, which, like Capt. Nichols' vessel, was following the president and his party.

In the latter case the charges stand in the name of Commander Von Duzer, in charge of the light-house steamer Lily. Commander Von Duzer is a naval officer and the Lily was one of the convoys of the steamer on which Mr. Roosevelt was traveling.

Capt. Cole has been completely exonerated by the people on his boat and Mr. Saunders Fowler, who witnessed the incident, is perfectly sat-

E. H. HARRIMAN.

FARMER HELD UP BY ARMED FOOTPAD ON COUNTRY ROAD

Held powerless at the point of a revolver, Alva Harper, a farmer of the county, was compelled to deliver all his cash, \$35, to a footpad this morning between 2 and 3 o'clock near the Wallace park baseball grounds. Harper was coming to the city when accosted by the footpad. As soon as possible he telephoned to police headquarters and reported, but it was out of the city limits. The footpad is described as being black, of medium build and height and wearing a light hat.

MAY SUE FOR DAMAGES

Patrolman William Johnson and Casper Jones may sue M. C. Reasons, of Dyer county, Tenn., for malicious prosecution. Reasons made charges of robbery against the patrolmen several weeks ago, and after an investigation the board of fire and police commissioners cleared the patrolmen.

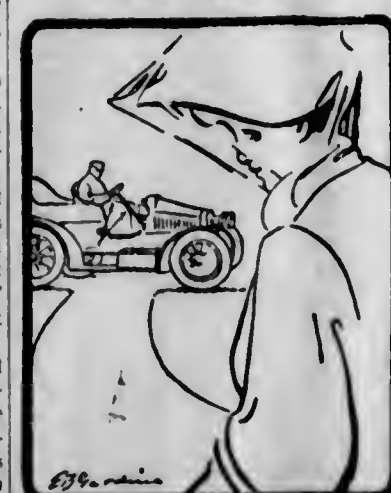

A NICE WINDFALL

Mr. A. J. Higby, a paper hanger of Paducah, has received notice from Oswego, New York, that he is soon to come into possession of \$10,000 worth of New York real estate that has been bequeathed to him by William Little Higby, who recently died in Oswego. Proper identification papers have been forwarded and Mr. Higby expects to receive title to the property in a few days.

RAILWAY UNIONS.

New York, Oct. 17.—An amalgamation of the Order of Railway Conductors and the Brotherhood of Railway Trainmen into a compact union, which is to take in all the conductors, flagmen, brakemen and baggage men employed on the railroads of the United States and Mexico is expected to be the result of a national convention of railroad employees which opened today in the Broadway Central hotel.

THE WEATHER.

PLEASANT

Fair tonight and Friday; moderate temperature, probably cooler Friday. Highest temperature yesterday.

ILLINOIS CENTRAL ELECTION IS HELD TODAY IN CHICAGO AND THE STRUGGLE IS VIGOROUS

**Was Postponed From Yesterday and
Harriman and Fish Were Ready**

**Fight For Delay When Meeting was
Called to Order**

Chicago, Oct. 17.—No election of directors had been accomplished by Judge Hall's decision today, the total effective vote is 663,669 shares. Based upon previous meetings of the Illinois Central railroad, the estimate was that approximately 100,000 shares would not be voted. This, in the opinion of the attorneys in the case, would leave a probable representation of 563,669 shares at the meeting.

Clerk Gets Sample Ballot. County Clerk Hiram Smedley this morning received a sample ballot and instructions how he shall have ballots printed for the state election.

Boy Is Asphyxiated.

Louisville, Ky., Oct. 17. (Special.)—While writing a letter to his brother Otto Alberts, 16 years old, was asphyxiated by illuminating gas.

Is Wanted at Metropolis.

Morris Pallen, alias Dan Dunlap, colored, was arrested this afternoon by Patrolmen Cross and Johnson as a fugitive from justice from Metropolis, Ill. It is not known on what charge he is wanted and officers will come after him tonight or tomorrow. He will return without a requisition.

TOBACCO GROWERS ARE ORGANIZED BEST IN HISTORY

"The most perfect organization in the history of the Dark Tobacco Planters' Protective association" was the statement of Mr. John M. Allen of Guthrie, Ky., district organizer and prominent in the councils of the association managers, this morning, when asked what he thought of the outlook for the success of the association this year.

"I am confident that 85 per cent of the crop is under the control of the association, and what was not pledged has been sold, leaving the association in control of practically all the crop for the present year."

Mr. Allen was here conferring with the county managers today, arranging details for the final disposition of last year's business and looking toward the handling and sale of the new crop, which will soon be coming into market. When asked what was the principal reason for the phenomenal success of the planters' association, he said: "The staunch loyalty of the farmers who entered the association with a determination to stick to it until they were given what was justly due them. Of course, the association has had wise management and leadership, but success would have been impossible without the hearty co-operation of the farmers. Another fact of much importance is that the tobacco has been honestly prized and graded. This has given the buyers confidence in the association."

"The system of pricing and grading in use has been such that the tobacco is placed on the market under much better conditions than the independent tobacco buyer can do."

Mr. Allen has been active in the work of organizing the growers and to his foresight and judgment much credit is given by his associates. He is a forceful and witty speaker, and aside from his logic, is a splendid entertainer. He has made a number of speeches in McCracken county during the present season and is popular here.

LITTLE HELEN LOVE.

Smithland, Ky., Oct. 17. (Special.)—Helen Love, the 12-year old daughter of Mr. and Mrs. I. B. Love, and granddaughter of C. H. Davis, died this morning of pneumonia, following an attack of croup. Her father was in Texas and was telegraphed for. She is a niece of Mr. Cado Davis and of Mrs. W. H. Sanders of Paducah and has many relatives.

Counting on the shares affected by Judge Hall's decision today, the total effective vote is 663,669 shares. Based upon previous meetings of the Illinois Central railroad, the estimate was that approximately 100,000 shares would not be voted. This, in the opinion of the attorneys in the case, would leave a probable representation of 563,669 shares at the meeting.

Clerk Gets Sample Ballot. County Clerk Hiram Smedley this morning received a sample ballot and instructions how he shall have ballots printed for the state election.

Boy Is Asphyxiated.

Louisville, Ky., Oct. 17. (Special.)—While writing a letter to his brother Otto Alberts, 16 years old, was asphyxiated by illuminating gas.

Is Wanted at Metropolis.

Morris Pallen, alias Dan Dunlap, colored, was arrested this afternoon by Patrolmen Cross and Johnson as a fugitive from justice from Metropolis, Ill. It is not known on what charge he is wanted and officers will come after him tonight or tomorrow. He will return without a requisition.

PEACE CONFERENCE ENDS.

The Hague, Oct. 17.—The Hague peace conference will end Saturday. Delegates will sign the final act tomorrow and affix their names to various conventions Saturday. They will then adjourn sine die.

BURRADELL CASE

Frankfort, Oct. 17. (Special.)—The court of appeals today reversed the judgment of the McCracken circuit court, awarding Minnie Burradell \$2,000 for injuries received in a street car accident.

PRINCE IN DANGER.

Seoul, Korea, Oct. 17.—Now that the Crown Prince Yohito, of Japan, is in Korea, his countrymen here are alarmed. The prince appears to be distributed over threats against him. Rumors are current of a plot to assassinate the royal visitor. Many suspects were arrested.

KENTUCKY SYNOD.

Midway, Ky., Oct. 17. (Special.)—Kentucky synod of the Southern Presbyterians, adopted a resolution, providing for filling vacancies on the Central University board of trustees, by members of the board themselves. It will become effective upon adoption also by the northern synod at Owensboro next week.

MORE BAD MONEY.

Several bad silver dollars appeared again at the market this morning, the first time the counterfeit money has reached the avenues of trade in several weeks. The dollars are the same kind of spurious coin that has been in circulation around the city for several months, and it is believed that some one is systematically placing the bad money in circulation. The counterfeit dollars are much lighter than the genuine and can easily be detected by the weight, though the colnage has a good appearance.

WAS NINETY ONE.

Dr. Stokely Payne, 91 years old, died at La Center today. He formerly lived here.

Dr. Payne came to Paducah in 1858 and built on a timber tract through the site of which Madison street runs. Dr. Payne was born in Culpeper county, Va., and was reared in Tennessee. He practiced in Tennessee, Indiana and Christian county before coming here. His third wife, Mrs. Nannie Standfield Payne, died here 10 years ago. Dr. Payne died at the home of his son, Dr. Stokely

little house-maid says good furniture will make a happy home

Mrs. Homelover:-

you love a happy home and you believe what little house maid says, don't you?

the first question you ask is, "where can i get good furniture?" ask anybody.

the next question you ask is, "where can i get this good furniture at the lowest price?" ask those who deal with us.

you know that prices in newspapers all look alike, so we simply ask you to come and see the prices on our furniture as you look at it.

yours truly,

Rhodes-Burford Co.

Made It Tight.
A small boy was asked to take dinner at the home of a distinguished professor in Princeton. The lad's mother, in fear lest he should commit some breach of etiquette, gave him repeated directions as to what he should, and should not do.
Upon his return from the great occasion the mother's first question was, "Harold, did you get along at the table all right?"
"Oh, yes, mamma, well enough."
"You are sure that you didn't do anything that was not perfectly polite and gentlemanly?"
"Why, no—nothing to speak of."
"Then something did happen. What was it?"
"But I fixed it all right, mamma."
"Tell me at once."
"Why, I got along pretty well until the meat came, but while I was trying to cut mine it slipped off on the floor. But I made it all right."
"What did you do?"
"Oh, I just said, sort of carelessly, 'That's always the way with tough meat.'"
The world is too small for the covetous.

S.S.S. PURELY VEGETABLE

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone. Young or old, those in robust health, or those whose systems are delicate and run-down, may use it with the same good results, and equally without fear of any unpleasant or injurious after-effects. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease had been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying properties. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. Being made entirely from these vegetable ingredients S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood troubles by removing the cause and supplying the circulation with health-giving and strength-producing qualities.

ANY CITY MAY BID FOR CONVENTION

If it is Able to Furnish Necessary Accommodations

Money, Convention Hall and Sleeping Rooms Required by Republican National Committee.

SEVERAL ARE AFTER MEETING.

Washington, D. C., Oct. 17.—Any city which has \$100,000 to spare, with a hall seating from 7,000 to 10,000 persons, with adequate hotel accommodations for 2,000 delegates, alternates and officers, plus 10,000 to 20,000 visitors, and the whole surrounded with an adequate telegraph service, can make a bid for the next Republican national convention with a fair prospect of success.

The call for the meeting of the national committee will probably be issued during the latter part of this week, when Chairman New arrives in Washington and has a conference with Secretary Elmer Dover, who is already in town. If the usual custom is followed, the committee will meet in this city somewhere about the 6th or 7th of December, which are the last two days of the week in which the new congress meets.

Many Cities Already Bidding.
It is not necessary for any city which desires to have the convention to file claims with the committee in advance of the meeting. Representatives of most cities write to the secretary for information as to what will be required. Their communications have enabled Secretary Dover to make up a list of cities now known to be moving in this direction, which includes Chicago, St. Louis, Kansas City, Denver, Seattle, Pittsburgh and Boston.

There is nothing to prevent any number of other cities coming to the front and presenting their claims at the last moment. It has been the habit, however, for any city which is really in earnest to begin its campaign early in the fall, and it has frequently happened that the national committee has convened with a membership practically picked up for different cities. Afterwards there comes a natural surrender by the weakest cities and a series of rapid combinations which finally fix on a choice.

Convention Will Not Be Sold.

I was told at the national committee headquarters today that the convention would not be sold. That is to say, it will not be put up to the highest bidder and knocked down for a money consideration without regard to convenience of delegates and the large crowds which are always attracted. At the same time money is absolutely necessary for the holding of a convention, and there is no means of securing that money except by subscription on the part of the public spirited citizens.

Since 1892 it has come to be the custom for any city which desires a convention to pledge itself to subscribe a sum approximating \$100,000. Out of this fund all expenses of the convention are paid. At Chicago in 1904, it cost about \$28,000 to secure and fit up the Coliseum building. There was spent for other legitimate expenses of the convention itself something less than \$10,000 more. All the rest of the fund, amounting to over \$60,000, was turned over to the national committee, not for the purpose of conducting an actual campaign in any way, but for the usual preliminary committee expenses.

Much Work in Store.

There is a vast amount of work nowadays in anticipation of a national convention. The membership remains about 1,000, and there are, in addition, an equal number of alternates. The credentials of all these must be inspected and passed upon before the convention meets. Counts have to be heard by the national committee, and decisions made in each case before it is possible to make up a temporary roll of the convention.

Besides this, the actual work of preparing the hall requires the attention of a sub-committee for several weeks. Many modifications have to be made in any large building, committee rooms provided, telegraph facilities arranged, telephones properly adjusted, and all machinery so carefully put together that it will run at high tension for a few days without danger of breaking. All this work is attended to by the national committee, and the expense involved comes out of the \$100,000 fund after the local committee has turned over the balance in its hands.

Hall the Main Requisite.

In 1901 the seating capacity of the

COUGHS AND COLDS

DRY UP BAW SPOTS IN THE SKIN.

Read How You Can Eradicate Those Terrible Red Spots Which Itch and Torture You.

Those raw and burning spots in the skin which make you scratch until you are almost mad with torture—they can be dried up and the skin will become as pure and white as ever by the use of the most simple external remedy known to medical science—a remedy made simple by the fact that its basic ingredient is oil of wintergreen. It is a liquid remedy used externally for Eczema, ring worm, barber's itch and other diseases of the skin, sold under the name of D. D. D. Prescription. This remedy instantly kills the germs which cause the itch. We know that the instant you apply a few drops of the D. D. D. liquid to that awful itching skin the agony is gone—you are free from that itch, soothed, cooled, refreshed—soon the unsightly red spots with their nasty exudations begin to disappear.

Read this letter from Mrs. J. W. Choate, of Carrollton, Wmsh., one of many thousands we have:

"I am thankful that a cure has been found for that terrible disease, eczema. Our little boy was tormented with eczema for two years. I sent for a sample of D. D. D. and it helped him wonderfully. After using three bottles he is well. Cannot say enough for D. D. D. Today the child's skin is smooth and clean and I shall recommend D. D. D. to every sufferer with skin disease."

While we have not seen the original copy of Mrs. Choate's letter, we are sure it is a genuine letter; for we know that the D. D. D. Co. is constantly getting hundreds and hundreds of letters of endorsement from those who have been cured by D. D. D. We know from people in our own town how wonderfully D. D. D. helps skin sufferers, and if you have any kind of skin trouble at all, drop into our store and we will show you letters from those who have been cured, your own neighbors, perhaps, letters giving important news to skin sufferers. R. W. Walker & Co., Fifth and Broadway.

DUPONT, VICE HEAD OF POWDER CONCERN, WEDS.

New York, Oct. 17.—Alfred I. Dupont De Nemours, vice president of the Dupont Powder company, of Delaware, and Mrs. Alice Maddox, his second cousin were married Tuesday at Hotel Plaza. Only the immediate members of the family were present.

Neither Mr. Dupont nor his brother Morris, who is the executive head of the powder company, had been allowed to hear of the explosion at the Dupont Powder company's plant at Pontiac, Ind.

Mrs. Dupont is a daughter of Judge Bradford, of the United States circuit court, and is a granddaughter of Alexis I. Dupont, son of the founder of the powder company. For the last year she has made her home in Paris. Last spring she sued for a divorce and the custody of their only child, Mr. Dupont obtained a divorce from Beale C. Dupont at Sioux Falls, S. D., last December.

—Almost every train that comes into the city brings people who will eagerly read the board and room ads.

Drinking Fountains Here.

Four fountains to be installed at street intersections by the daughters of the American Revolution, have arrived, and Contractor Ed Hannan is today installing two of them, one at Third and Broadway and the second at Seventh and Washington streets.

Coliseum at Chicago was a little less than 10,000, owing to the adoption of the new fire regulations, involving the widening of the aisles. It now could hold about 12,000. It is not every city that can furnish such an auditorium, and yet this is probably the most indispensable requisite for large conventions. Any city which appears before the national committee will have to show that a hall seating approximately as many as the Coliseum at Chicago is actually on hand or surely will be built before the convention meets.

The building of a hall of this kind especially for a national convention, is not looked upon with favor nowadays. A convention can and frequently does finish up its work inside of three days, so that it hardly pays to put up a temporary structure. Next to the hall itself, the national committee generally scrutinizes the hotel capacity of a city most carefully. Large headquarters are required for the national committee and for all of the more important state delegations. These headquarters must be grouped together, so as to permit frequent conferences between leaders of the different states. They need not be near the convention hall, however.

Hotels in Great Demand.

After the headquarters are disposed of there must be a large residuum of individual rooms, because there are in legitimate attendance upon a convention, including delegates, alternates, correspondents, officials and visiting delegations, not less than 5,000 persons, often more.

Then there comes the question of telegraph facilities. A national convention means that millions of words of dispatches must be sent out from that one city. This telegraphic work is concentrated not only within a few days but within comparatively a few hours of each day, so that the telegraph facilities must be of the metropolitan class, and a city which is deficient in telegraphic capacity might as well hang up its shingle at the outset.

THEATRICAL NOTES

AT THE KENTUCKY.
Saturday—(matinee and night)
Porter J. White's "Faust."

Helen Grantly.

In its review of "The Woman in the Case," which Helen Grantly is to present at The Kentucky tonight, the New York Herald says: "Clyde Fitch scored a dramatic hit and Helen Grantly a notable success in 'The Woman in the Case.' In the course of the plot Miss Grantly's netting rose to one or two impressive climaxes and was at all times interesting. The audience called her repeatedly before the curtain with enthusiastic applause." The production will be seen here with all its wealth of detail precisely as seen during its four months' run at the Herald Square theater in New York in addition to engagements at five other Metropolitan theaters, it is claimed.

A Great Production.

No more magnificent production scenically than the "Faust" of Porter White, is to be seen on the road this season. The electrical effects are said to be beautiful and startling and add greatly to the illusion of the classic drama, as prescribed by an excellent company of actors. The production will be the bill at The Kentucky Saturday, matinee and night.

EDUCATION

TO ENLIGHTEN PUBLIC AS TO RAILROAD'S BENEFICENCE.

Old Plan Suggested By Hags to Regain Confidence of Public of America.

Atlantic City, N. J., Oct. 17.—The annual convention of the American Railroad association began here today. In his annual report John I. Hags, president of the association, declared that the politicians who attack the corporations to improve their constituents threaten to many of the street railways of the country. He urged members of the association to begin a campaign of public education that will include taking the people into the confidence of the railroad officials as a means of meeting the danger. Reports show that 213 companies are members of the association.

MR. HAGER'S PLATFORM

In his opening speech at Lexington, Judge Hager said:

"I do not, therefore, come before you with a perfunctory platform, formulated by a few leaders and languidly adopted, without debate, by a meagerly attended convention, but with one that has been made and approved as their own, by the direct untrammelled votes of thousands of my fellow-Kentuckians for whose consideration it was presented."

In other words, this is the official platform of the Democratic party and its candidate. This being true, we desire to call attention to the fact that this platform contains eleven planks and not a word is said concerning the temperance question, which is the paramount issue in Kentucky. Judge Hager professes to be a temperance man. Why does he not endorse the cause of temperance in his platform?

In striking contrast, we call attention to the utterance in the Republican platform:

"We favor the enactment and enforcement of a uniform local option law, with the county as the governing unit."

It is apparent that Hager is attempting to carry water on both shoulders. He announces that personally he is in favor of temperance. This is done to catch the temperance vote. He then announces his party platform, that he made himself, and in which there is not a syllable about temperance. This is done to catch the liquor vote.

The people of Kentucky cannot be deceived in this matter. They prefer to accept the honest, candid statement of Mr. Wilson, who clearly defines his position without subterfuge or evasion.

NEW YORK POLICE CHARGED WITH SLEEPING ON DUTY.

New York, Oct. 17.—About fifty police lieutenants and sergeants will be placed on trial on charges of being asleep in bed when they should have been on reserve, as a result of

ENNA DEFINES A CAUSE.

European Skin Specialist Says Dandruff is Caused By Parasites.

Upon that theory, proved beyond a doubt, a cure for dandruff was sought after. Scientists, chemists, druggists and physicians all "took a hand" and the successful issue is the present product known as "Newbro's Herpicide." This remedy actually kills the parasites that infest the hair bulb, does its work most effective and contains not a atom of substance injurious to anything else than the germ alone. Herpicide causes the hair to grow as nature intended it should, soft and abundant.

Sold by leading druggists. Two sizes, 50c and \$1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. W. B. McPherson, special agent.

Seats on sale Friday.

an unexpected tour of inspection made by Commissioner Bingham and several of his staff early Tuesday morning. The tour was made by several officials simultaneously and covered all the stations in Manhattan, Richmond and the Bronx.

Commissioner Bingham had been preparing for the surprise party for several days. In order to let no word of it get out he arranged to borrow several fast motor cars from friends and then let his deputies, his secretary and a few lieutenants on his personal staff into the secret.

NOT PADUCAH GIRL WHO DIED IN CHICAGO.

Information received after a careful investigation shows that the young woman who died in Chicago several weeks ago under peculiar circumstances was not Lillian Tucker, of the Rosington section. She disappeared from Paducah, where she had been working, and her parents had not heard from her in several weeks when news of the death of Lillian Tucker in Chicago reached here.

GREATER PADUCAH KENTUCKY

GREGORY HEIGHTS ADDITION

The Pride of the Pride of the Purchase

800 Elevated, Improved Lots at Auction Wed. Thur. and Fri., Oct. 23, 24 and 25

The great need of Paducah is elevated lots for homes. Gregory Heights is and always will be the ne plus ultra of Paducah residence property.

Street Cars Absolutely Free for Everybody to and From the Sale

Sale at 10 o'clock each day. Large, seated sale tent. Fine music. Lunch at sale. Everybody, and ladies especially, invited. The outing can be made both pleasant and profitable.

At last the great and long-felt need of Paducah for high, dry, cool, healthful and beautiful homes, with street car transportation, can be partially supplied. Beautiful Gregory Heights, which all who have seen know and say is and always will be the cream of the cream—the ne plus ultra of Paducah residence property, is ready for sale and a portion of the lots will be sold on above dates. A mile of the Gregory Heights electric car line has been completed on the property, the streets have been nicely graded, the drives and sidewalks are being improved, and a home in beautiful Gregory Heights, the future pride of Paducah, will soon be the fad of the city.

GREGORY HEIGHTS IS HIGH, DRY AND HEALTHFUL.

It is well known that the ground in and nearly all around Paducah is about the same elevation of the city (much of it lower) and that there is a great and rapidly increasing demand for high ground for residences. It is well known that for altitude, drainage, dryness, healthfulness, pleasantness, nearness, exclusiveness, exemption from objectionable appurtenances, electric car transportation, best street connections and extensions, good improvements and neighborhood; no other residence district of Paducah is or can ever be equal to Gregory Heights. Think of the situation and you will be convinced that Gregory Heights will surely and quickly be the finest residence district of Paducah. The city is hedged on the east side by the river, the manufacturing district is on the south, a mixed district of factories and small houses is on the north. Where else, then, can the good residences go except west and on to Gregory Heights, which is directly in line and is the nearest and only property on such altitude that has street car service and the two best streets in the city (Broadway and Jefferson) extended to and through it, which is a great advantage that no other such elevated and near in property has or can have? Paducah's most rapid and substantial growth has been made in the last three years. Her prospects are evidently brighter now than ever. Present conditions and assured developments forecast a phenomenal future growth from now on, and Gregory Heights, the ideal home place, will be well occupied by Paducah's prettiest homes and happiest community, and will, in reality, be the pride of the pride of the Purchase. And then fortunate and thankful will be all who own homes or lots there, for they will be scarce, in great demand and very high. Some men have good foresight, and can grasp opportunities, but most men have better hind-sight, and can't see good things until they have passed.

SIGNIFICANT SIGNS OF THE TIMES.

Railroad magnates are among the brainiest and ablest men in the land. They think, plan and act for best results, and the profound, carefully planned and gigantic plays they are making on the great checker board of the Southern States, for vantage positions in this great, world wonder arena of matchless growth in products, population, commerce and wealth, are truly significant, and unmistakably forecast the great and good times just ahead. In this connection, have you considered Paducah's strong position and her great combination of attractions, advantages and resources, and her certainty to reap a large portion of the immense harvest of business, wealth and population in sight? Can't you see quick and large profits in the best residence lots in Paducah? Gregory Heights is and always will be the best, and nothing can beat the best.

COSTLY AND PERMANENT IMPROVEMENTS.

The grading and graveling of the streets and sidewalks, the construction of the new electric car line, heavy cement culverts, drain pipes, and other improvements, are first-class and permanent, and will cost the Gregory Heights Company a large sum of money—about \$65,000.00. But they are well done, and done to endure and give satisfaction, therefore all who buy lots will get full benefit of all these

improvements without additional future cost to them, which is very important to lot-buyers, and adds very much to the value and desirability of this fine property.

BUILDING RESTRICTIONS.

All lots in Gregory Heights will be sold with suitable building restrictions, thus assuring a high grade addition and greatest satisfaction and values to home-builders and investors.

A FEW BUSINESS LOTS.

To be selected by the Company, will be sold for mercantile purposes, for the convenience of residents of Gregory Heights, but the manufacture or sale of whiskey or any intoxicants will not be permitted. It is the determination of the Company to make Gregory Heights a strictly first-class and most attractive home addition, so that all who build or buy there will be abundantly delighted with their homes or greatly profited by their investments. Nature has formed and located Gregory Heights just right for it to be what it is intended to be and will be.

GREATER PADUCAH.

Nature has planned and destiny has marked Paducah to be one of the great inland cities of the South, and her future is absolutely assured.

SPLENDID GEOGRAPHICAL POSITION.

Paducah is surrounded by an immense area of very fertile country naturally tributary to her, the enormous and diversified products of which will be mainly handled by her retail and wholesale merchants, and will make a great, constantly-increasing and lucrative volume of business.

BEST WATER TRANSPORTATION.

Paducah occupies the best position in the United States for inland water transportation, being the most central, accessible and convenient city to the greatest mileage of navigable rivers in the United States, and, perhaps in the world. The great central river system of the country, embracing six fine navigable streams and their numerous tributaries, and over 3,000 miles of navigable waterways penetrating in wide-spreading and far-reaching courses over 270 degrees of the vast surrounding domain, and all flowing down stream toward their confluence at or near Paducah, and into the Mississippi only 47 miles below the city, give Paducah navigable water transportation to an enormous area of the central and best portion of the United States, 1,100 towns and also with the Gulf and ports of the world. Can this strong position and these great advantages fail to win? Can Paducah fail to be a big city? Certainly not.

GREAT RAILROAD CENTER.

The railroads are fully aware of the importance of Paducah as a receiving and distributing point and are preparing to come in and share the great volume of business. The writer is informed by persons claiming to know, that six great trunk lines are now planning to come in, and that three of them—the Big Four, Wabash and Burlington—are now making surveys, plans and estimates for routes and river crossings to the city, and others will follow, for where the business is the railroads will come. With these great railroads assured Paducah will grow by leaps and bounds. The above information as to three of these great roads is from official sources and is reliable.

PADUCAH SOUTHERN ELECTRIC R. R.

This very important road from Paducah to Mayfield, and to be extended later to Jackson and Memphis, has been capitalized, is being located, and will be pushed rapidly to completion. Another electric road is projected from Paducah to Cairo, and doubtless several inter-urban feeders to Paducah will be built. This is the age of interurban

as well as steam railroads, and they are very convenient, successful, profitable, and wonderful developers and enhancers of business, travel and values. This country will be a net work of steam and electric roads, and Paducah will get her share of them. A great deal more valuable and interesting information about Paducah could be given if space permitted, but it is not the purpose to give a thorough write-up here. Come to this sale and see the physical conditions, the necessity for highland residence lots, the unequalled advantages and attractions of beautiful Gregory Heights for those highland homes, and then you will know whether or not it is the best property to buy for homes, or for quick and large profits.

TO PEOPLE OF OTHER TOWNS AND FARMERS.

If you want to make money easily and quickly, why not come and buy either as individuals, or make up companies or syndicates of 5 to 25 of your own people and buy a large number of Gregory Heights lots at this sale and make the big and quick profits that will be made on this fine property? If you want or expect to have homes in Paducah, where your families can have the benefit of the good schools, society and advantage of the city, you should attend this sale and secure lots in Gregory Heights for your homes, or to sell again for big profits. The cost of the trip to this sale will be a trifle compared to the big profits you can make on Gregory Heights lots. Remember the time, and don't fail to come.

Examine the map carefully and note Paducah's splendid, central situation, where she has the greatest possible advantage of the main navigable river system of the United States, and is also in line with the great current of railroad travel and traffic between St. Louis, Cincinnati, Chicago and the great lakes of the North; and New Orleans, the Gulf, the ports of the world, and a large portion of the rapidly growing Southern States and cities.

A FINE, PERPETUAL OPEN HARBOR.

Another of Paducah's great advantages is her year-round open harbor. The island opposite the harbor divides the waters of the Ohio and Tennessee, so that the water and ice of the Ohio flow by on the off or far side of the harbor, while the warmer water of the Tennessee flows directly into the harbor, and thus Paducah's fine harbor is kept open and free of ice the year round.

HOW THE SALE WILL BE CONDUCTED.

This sale will be held mainly under a large tent, with seats that will be comfortable and restful. A large cloth map, showing the entire property on a large scale, with the blocks in contrasting colors and the dimensions of the lots in plain figures, will be put up in the tent, and each lot, as offered will be indicated by an arrow head. Each lot will be sold with the privilege of as many adjoining lots, side or rear, under one bid, as purchaser may desire, so that purchasers may secure, by one bid, as much ground as they may desire, and in any shape they may desire it. Lots will not be sold solidly, the purpose being to reserve a portion of each block for future sale. But every purchaser will have privilege of taking, at one bid, as many lots in a solid body as desired, even to the half or whole of a block. Some of the lots that are in the groves and can not be seen from the tent, will be flagged and sold right on the ground. The purpose in announcing a three days' sale is to have ample time for all to carefully examine the beautiful ground and select what they want. If the third day be not needed, the sale will close the second day; therefore all who wish to attend should do so on the first and second days. If weather be suitable, there will be a sale and concert on the ground by moonlight and electric light Wednesday night, the 23rd, at 7 o'clock, and also at a central place in the city Thursday night, the 24th, at 7 o'clock, so that all who wish to attend the sales and can not do so during the daytime, can attend one or both of the night sales. Notice of the regular program or any changes in it, will be given in the city newspapers. Broadway cars will run every ten minutes right to and from the sale without charge, and free for all both ways.

PEOPLE AND SOCIAL EVENTS

Forestry Meeting Will Not Be Held Until Late in November.

Mr. John S. Blocker, of the Forestry committee of the Commercial club, received a letter today from Dr. Thomas Elmer Will, secretary of the American Forestry association, saying that his dates had been changed, and that he would not be in Paducah until the latter part of November instead of November 4, as was first arranged.

The civics department of the Woman's club, which was to co-operate with the forestry committee in having Dr. Will lecture here, will have an open meeting on November 7, with local speakers on a program for civic improvement, and the forestry meeting will be held whenever Dr. Will can come.

Boy Social at Mizpah Mission.

There will be a boy social at the Mizpah mission on Elizabeth street Friday evening at 7:30 o'clock. Each girl is requested to put her name on her box, which must contain luncheon for two people. An impromptu musical program will be rendered during the evening.

Woman's Club Meeting.

An open meeting is being held at the Woman's club house, 608 Kentucky avenue, this afternoon, under the auspices of the music department of the club. Miss Virginia Nowell, chairman. An attractive program contrasting old and new ballads is being featured by some of the city's most talented musicians.

A business meeting of the club was held at 2 o'clock to discuss matters of importance.

Local Forestry Committee to Organize.

Mrs. Robert Becker Phillips, who was recently made a member of the forestry department of the Kentucky Federation of clubs, by the chairman, Mrs. Mason Maury, of Louisville, has called a meeting for Friday afternoon at 1:30 o'clock with Miss Adine Morton, 412 Broadway, to organize a local forestry committee for civic work under the state federation.

Those who will represent the local work are Mrs. Robert Phillips, of the State Forestry committee, Miss Adine Morton, chairman of clubs of Paducah Woman's club; Messrs. John S. Blocker and Saunders A. Fowler, of the forestry committee of the Paducah Commercial club; Mr. James E. Wilhelm, president of the board of works; Mr. Edwin J. Paxton, of the board of park commissioners; Mr. John A. Carnegie, superintendent of the city schools.

Work to be done by the committee will be discussed and outlined tomorrow at the meeting.

Church Musical.

One of the most interesting musical given in the city in a long time is promised at the Third Street Methodist church tonight. An excellent and varied program will be given by some of the best talent in the city. Everybody is invited.

Col. and Mrs. J. T. Williamson, of Graves county, celebrated the thirty-seventh anniversary of their wedding on Saturday at their home on the Farmington road with a notable family reunion. They are fifty-three years old. Their eight children, four boys and four girls, all of whom are married except one son, and nineteen grandchildren were all present. The mother was served, the two long tables extending the length of the dining room. Mr. and Mrs. John E. Williamson, of this city, was present. Mr. Williamson is a son.

Some Features of the State D. A. R. Conference.

Mrs. El G. Boone, regent of the Paducah chapter, D. A. R., returned home this morning from Louisville, where she attended the eleventh conference of the daughters of the American Revolution, Kentucky division, as a delegate from the local chapter. The Paducah chapter of Louisville were the hostesses at the country club and the occasion was a most pleasant one, with some delightful social features. The next meeting will be held in Lexington in October, 1908. The conference would have come to Paducah, but owing to the state federation being here in 1908 the Paducah chapter did not think it best to invite it for the same year. The officers were elected as follows:

Vice-President-General—Mrs. Sallie Marshall Hardy, of Louisville, re-elected.

State Regent—Mrs. Clodolph D. Chennault, of Lexington, re-elected.

Vice-State Regent—Mrs. James E. Cassidy, of Covington, to succeed Mrs. M. H. Nash, of Paducah, whose term limit had expired.

Secretary—Mrs. W. H. Thompson, of the Bryant Station chapter of Lexington, to succeed Miss Margaret Butler, of Paris, who was re-elected and declined.

State Treasurer—Mrs. Wilson H. Escott, of Shelbyville, re-elected.

Mrs. Alexander B. Humphrey, regent of the Paducah chapter, delivered the address of welcome in a most cordial manner, and it was responded to in a graceful speech by the state regent, Mrs. C. D. Chennault.

Mrs. Humphrey then presented Mrs. Chennault with a large bunch of American Beauty roses, the gift of the Paducah chapter.

of Henderson, for the plan of view, pro-plant-general, a military officer. The election was very close. Mrs. Hardy winning by three votes.

The report of the Kentucky educational fund was very fine. The chapters educated three mountain girls last year at \$25 a scholarship and increased the number to five for this year.

Much enthusiasm was voiced when the report of the Paducah chapter was made. Mrs. Boone presented it by the announcement that the chapter felt very selfish inasmuch as it was doing chiefly local work. When the statement was made that \$1,000 had been raised since January for the D. A. R. memorial fund, the applause was spontaneous and prolonged. Many inquired "what Paducah was made of?" as she had already captured high honors in Women's club work at Shelbyville, and no place elsewhere came up to her.

At the conclusion of the business a delightful banquet was given in the dining-room of the club. Eighty-three guests were seated at small tables, elaborately decorated in American Beauty roses, the candles holding red candles and red and silver shades. The fees were modest to represent liberty bells, a statue of George Washington and other patriotic emblems. The cakes were in red, white and blue flags, the red-bons, etc., in red. Welby's orchestra played during dinner, and afterward Miss Virginia Shaffer's singing was greatly enjoyed.

The second day Mrs. Alexander Humphrey, regent of the Paducah chapter, entertained the delegates and alternates and the Paducah chapter at luncheon at her beautiful home, which was the old Paducah club house, and is filled with heirlooms of historic interest. The luncheon was a most elaborate and hand somely appointed affair.

Mrs. I. O. Walker, who accompanied Mrs. Boone to Louisville, remained for a visit to relatives. Mrs. M. B. Nash, who was an alternate delegate from Paducah chapter, and present by virtue of her state office, will not return until early in November.

Paducah has made a most favorable impression throughout the state in the personnel of her women sent to the state meetings in Shelbyville and Louisville and echoes of it can be heard far and wide.

Capt. Arthur Meaker, commander of the Salvation Army for western Kentucky, left today for Cincinnati to attend a council held by Gen. William Booth this week.

Senator Wheeler Campbell left at noon for Madisonville.

Miss Peary Connel and Miss Myrtle Hite and Mr. J. D. Carueal, of Grahamville, left today for Kimbrough to visit relatives.

Mrs. Alice Little of Durant, Indiana Territory, arrived in the city today en route to Marshall county, where she goes to visit relatives.

Mr. George B. Wenson, the Calro wholesale grocer, was here yesterday.

Mrs. Frank L. Scott and Miss Marjorie Scott have returned from Louisville.

Mr. W. O. Coleman, of Henry county, is in the city. He is the Democratic candidate for state prison commissioner.

Misses Grace Ansteth and Ruth Parler have returned from Pottsville, Graves county, where they attended the golden wedding celebration of Mr. and Mrs. J. H. Jones.

Miss Annie Settle has returned from Springfield, Mo., where she was for a short while as stenographer for the Santa Fe railroad.

Miss Johnnie Lane has returned from visiting her cousin, Miss Jessie Loh Lane, of Graves county.

President John S. Albright, of the First National Bank and Trust company of Calro, is in the city.

Mrs. Sidney Losh returned last night from spending several weeks with her parents at Oklahoma City, Okla. She was accompanied by Mr. Losh, who has been on a business trip through the north and west.

Mr. and Mrs. William Cash, of Mayfield, are visiting Mr. John Nance, of the city.

Miss Daisy Cunningham, of Mayfield, is visiting in the city.

Mr. Earl Walters was in Princeton and Eddyville yesterday on business.

Mr. and Mrs. E. R. Bradshaw have returned from spending the summer in Michigan.

Mrs. John Orme, 422 Kentucky avenue, will leave on Monday for Jacksonville, Fla., to spend the winter.

Dr. H. P. Sights has returned from Louisville, where he attended the State Medical society meeting.

Hon. McD. Ferguson, railroad commissioner from this district, was in the city last night.

Mr. J. S. Lovelace, of Fulton, is in the city today.

Mrs. John Orme, 422 Kentucky avenue, will leave on Monday for Jacksonville, Fla., to spend the winter.

Dr. H. P. Sights has returned from Louisville, where he attended the State Medical society meeting.

Hon. McD. Ferguson, railroad commissioner from this district, was in the city last night.

Mr. J. S. Lovelace, of Fulton, is in the city today.

Mr. and Mrs. H. C. Hollins left this afternoon for Los Angeles, Cal., to spend the winter. Mr. Hollins is a prominent real estate and insurance man.

Dr. and Mrs. W. M. Cowgill, of Lincoln, Neb., are the guests of Dr. and Mrs. John G. Brooks, 337 North Seventh street. Dr. and Mrs. Cowgill formerly lived in Paducah and have many friends here. They moved to Lincoln several years ago.

Manager A. L. Joyner, of the Cumberland Telephone company, went to Benton this morning on professional business.

Circuit Judge William Reed went to Benton this morning on professional business.

Mrs. W. M. Tolbert and daughter, Dorothy, left today for San Antonio to spend the winter.

Mr. J. D. Clifton, of Southland, is in the city today.

Mr. J. F. Wayne, who is connected with the Ayer-Lord Tie company, in Livingston county, is in the city on business today.

Mr. H. C. Hollins has disposed of his real estate and insurance business and will go to California to locate. His office in the Truheart building has been taken by Attorney C. C. Grassham and Dr. Owen, who will use it as a reception room for both offices.

Marshall C. G. Shackelford, of Princeton, is in the city on business.

IN THE COURTS

In Police Court.

Police court lasted long enough this morning to order two continuances. John George, charged with disorderly conduct, and Ed Jones, the latter colored, charged with non support of his child, were both granted continuances.

October Term.

The October term of McCracken circuit court will convene on Monday and last six weeks. The first cases to be tried will be by jury, which will require half the session. The remainder of the term will be consumed in trial of equity cases, where the judge decides. This term, the docket is large. There are 609 cases, 169 ordinary cases and 440 equity suits.

In County Court.

Luther A. Graham was appointed administrator of C. E. Crawford.

Marriage Licenses.

Robert Wantless to Vinnie Maxey, W. L. Douglas to Mary Belle Haskery.

Luther Thomas to Addie Caldwell.

Deeds Filed.

Oscar Rebes to George Yopp, property in the county, \$81.

D. M. Jones to J. W. Harris, property on the Hinkleville road, \$1,800.

Chamblin & Murray, to Alfred Jones, property in the county, \$387.

G. Lloyd Rudolph and others to T. O. Willett, property in the county, \$3,500.

R. B. Terrell et al to Mrs. Eva J. Washburn, property in Fountain park, addition, \$1 and other considerations.

Piece of Board Was Blown 23 Miles. Montezuma, Ind., Oct. 17.—A few seconds after the explosion of the powder mill at Fontanet, a piece of one board almost one foot long, about three inches wide and more than one inch thick, flew through the window of the residence of Mr. and Mrs. Gus Bailey, who lives on South Jefferson street. It came with such terrific force that it went through a rambler rose bush by the window through the wire screen and the window glass. One end was jagged and blown off a longer piece and had several drops of blood on it. The supposition is that the piece of pine was blown here from the Fontanet powder mill, a distance of twenty-three miles.

Steads to See a Bull Game. Koukahee, Ill., Oct. 17.—Roger Forrest, of this city, aged 22, burglarized a saloon last week to get funds with which to attend one of the world's championship ball games in Chicago. Today he was sentenced to the penitentiary.

Restore Clay Statue. Louisville, Ky., Oct. 17. (Special.)—The grand lodge of Masons voted to restore the statue of Henry Clay at Lexington.

Thieves Steal Overcoat. Thieves entered the Knowles residence, 415 Kentucky avenue, yesterday afternoon and stole two overcoats belonging to members of the family.

Not too young to be one of our customers, and if he comes alone or with the whole family his case will receive the same careful treatment as if he were our biggest purchaser.

Agents for the Buster Brown and Buddy Tucker suits, sizes 2 to 6 years.

B. Neale & Son
400-415 BROADWAY.

Too Risky

Ask your doctor if he does not think it would be wise for you to keep a bottle of Ayer's Cherry Pectoral in the house.

"A hard chill, pain through the chest, difficult breathing." If this should be your experience, send for your doctor. It may be pneumonia! To doctor yourself would be too risky. If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him exactly what you have done.

J. C. Ayer & Co., Lowell, Mass.

HAD NEVER HIDDEN ON TRAIN

Trip of Korea's Crown Prince His First Experience.

Seoul, Oct. 17.—The emperor and crown prince of Korea left Seoul for Chemulpo this afternoon to meet the Japanese crown prince who is coming here for a visit. It was the first time the crown prince of Korea had ever ridden on a railroad train and he showed a childlike interest in the proceedings. He was delighted with the speed of the cars and wondered to see smoke pouring from the locomotive. The Japanese crown prince was escorted here. The crown prince of Korea then called on the Japanese prince, who returned the call immediately. Seoul is brilliantly lighted tonight in honor of the distinguished visitors.

Seven Feet of Nails.

A scientist has estimated that in a lifetime of seventy years a man grows nails which, if it were possible to preserve them uncut, would reach the phenomenal length of seven feet nine inches. Exactly on what arguments this statement is based it is hard to say, for a little observation will show that during the greater portion of a

man's life he cuts his nails on an average once a week, and at each paring removes a sixteenth of an inch, or the equivalent of a quarter of an inch per month, working out three inches in a year. This would give him a growth of seven feet six inches during the thirty years he lives between twenty and fifty. In the other forty years, when the growth is less rapid, he would certainly produce four feet of nails, so that seven feet is a better average for the nail-producing capacity of man. It should be noted, however, that the growth of the nails on the right hand is, in most people, more rapid than those on the left, and it may be that the scientist in question has based his argument on the slower growth of the left-hand nails. Another curious point is that the rate of growth of the nails depends directly on the length of the finger; thus, the nails on the two middle fingers of man grow more rapidly than those on the first and third fingers respectively, and these in turn are more speedy in their growth than those on the little fingers. Again, nails "ripen" quicker in summer than in winter, when the cold seems to render them harder. Tlt-Blt's.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a flower which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. Few young women appreciate the shock of the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when those organs are established in health the face and form at once witness to the fact in renewed comeliness. More than a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. It is made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and make its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve, nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Bad Symptoms. The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling, in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol,

harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle wrapper and attested under oath as complete and correct.

In any condition of the female system Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of the "Favorite Prescription." It will not perform miracles; it will not cure tumors—no medicine will; it will often prevent them, if taken in time, and thus the operating hand and the surgeon's knife may be avoided.

Doctor's All Agree. The most eminent writers on *Materia Medica*, whose works are consulted as authorities by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering, or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrh of throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with fatty assimilation, and which, if neglected or badly treated are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

The formula is printed on every wrapper of "Golden Medical Discovery," attested as to correctness under oath, and you can't afford to accept any substitute of unknown composition for this non-secret remedy no matter what selfish interests may prompt the dealer to urge such upon you. In fact it is an insult to your intelligence for him to do so. You know what you want and it is his place to supply that want.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They cleanse, invigorate and regulate stomach, liver and bowels, curing biliousness and constipation. Little sugar-coated granules—easy to take as candy.

Dr. Pierce may be consulted by letter free of charge. Address Dr. J. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 cent stamps for paper-covered, or 31 cent stamps for cloth-bound copy. Address Dr. Pierce as above.

HOUSE PAY ROLL

STUFFED, SAY THE LEGISLATIVE VOTERS' LEAGUE OF CHICAGO.

Address Letter to Speaker Shortell, of General Assembly, on the Subject.

Chicago, Oct. 17.—The Legislative Voters' League of this city has addressed an open letter to Honorable Edward D. Shortell, speaker of the Illinois house of representatives, calling his attention to the "stuffing" of the house pay roll. According to the letter the number of employees authorized by law is 41, whereas the number employed was 121 at the beginning of the 1907 session. "Many political barnacles," the letter says, "who rendered no equivalent service for the pay were permitted to hold their places." Out of ten stenographers authorized, only five could write shorthand, and only two of the five could operate a typewriter, while one was a common laborer. In cases where employees were authorized at \$4 per day the number was increased by reducing the pay to \$3.

IN 'METROPOLIS

Toy Linsler, of Paducah, visited home folks this week.

Mrs. Charles Dussing and daughters visited in Paducah the early part of the week.

Attorney H. A. Evans is attending to legal business in Golconda this week.

Mrs. Guy Fitch was shopping in Paducah Tuesday.

Mrs. Fritz Roskemer was shopping in Paducah Tuesday.

Capt. L. W. Copeland made a business trip to Paducah Tuesday.

Mrs. Will Rush is visiting in Harrisburg, Ill.

Mr. and Mrs. Charles Gebauer are visiting Mrs. Gebauer's father in Golconda.

Luther Dick and Ernie Hamilton, of Louisville, Graves county, Ky., were married here the early part of this week.

The old plantation show that was here last week chartered the gasoline boat that was with the Evening Star Floating Palace, and will continue down the river to show this winter if it is at Joppa this week.

Mr. Bateman, the hotel man of Joppa, was here yesterday.

Mrs. Peter Belford is ill and not expected to live.

Dr. Ragsdale made a business trip to Marion, Ill., yesterday.

Mrs. Wm. Walker is attending to lodge business in Moline, Ill., and St. Louis.

Mrs. John Bercourt visited in Paducah today.

Miss Willie Hunt and sister visited Paducah today.

ST. JOHN CASE DISMISSED.

Nevada Attorney Says State is Unable to Secure Evidence.

Goldfield, Nev., Oct. 17.—Upon motion of the district attorney, Judge Langan yesterday dismissed the cases against Vincent St. John and other members of the Western Federation of Miners, accused of conspiracy to murder Silver, the restaurant keeper.

Two men, Preston and Smith, are now serving five and ten year terms, respectively, in the penitentiary for murder. The district attorney said in making his motion to dismiss that some of the witnesses were out of the state and the state could not hope to convict on the evidence at hand. St. John has been out on bail.

TRAVEL 100 MILES IN BALLOON

Americans Who Will Enter International Race Make Test Trip.

St. Louis, Oct. 17.—After traveling through the air a distance of almost 100 miles in three hours and ten minutes, J. C. McCoy and Captain C. DeF. Chandler, of the United States signal corps, brought the balloon "Psyche" to earth three miles north of Jacksonville, Ill., late this afternoon, ending the first trial trip taken by the aeronauts, who are to contest in the international races to be held here October 21. By tomorrow night it is expected all the contestants will have arrived. Alfred Le Blanc, pilot, and E. W. Mix, companion, who will handle one of the French entries, arrived tonight, as did two German teams.

str in Illinois K. of P.
Moline, Ill., Oct. 17.—Upwards of 1,200 delegates are in attendance at the thirty-eighth annual state convention of the Knights of Pythias grand lodge, which will be in session three days. C. E. Chamberlain, of Belleville, caused a surprise when he announced his candidacy for grand outer guard. It had been conceded that Joseph M. Omo, of Chicago, would get the office. F. C. Smith, of East St. Louis, is a candidate for supreme representative.

It was announced that the contract for the erection of the Pethian old home at Decatur was let to the Graf C. Derr Construction company of La Crosse for \$117,000.
Grand lodge officers' reports showed the total membership of the state to be \$38,332, a gain of 1,000, and the assets amounted to \$1,001,260.

TELLS HOW TO MIX IT.

Direction to Prepare Simple, Yet Remarkable, Home Mixture.
A well-known authority on Rheumatism gives the following valuable yet simple and harmless prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.
Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being of vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are so many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here in this time.

FALSE RUMOR

FAKE STORY OF MOB IN CITY OF SAN FRANCISCO.

Tokio Receives Dispatches But Foreign Offices Has No Such Information.

Tokio, Oct. 17.—A special dispatch made public here at a late hour tonight gives a sensational account of an attack on the Japanese by a mob at San Francisco and relates the destruction of Japanese property and the fatal injuring of one Japanese. The foreign office has no information giving the details of this occurrence, and is not inclined to express an opinion thereon. But one official said tonight that if the facts are as published it is only another evidence of the action of irresponsible persons who do not represent the real sentiment of America. This affair is regarded as particularly unfortunate, however, on account of the splendid reception recorded by officials and merchants of Japan to Messrs. Burke and Backus, delegates from the Seattle exposition.

FROM COLORED MAN DIES.

News reached the city yesterday of the death of Prof. Charles Steele, grand master of the colored Masons of Kentucky, at Georgetown. He had suffered for more than a year from Bright's disease. Prof. Steele was one of the most prominent colored men of the state. He was also a prominent colored Odd Fellow, having filled the office of grand master in that fraternity for two years. For 25 years he was principal of the colored high school at Georgetown.

MUST SPEW THEM OUT

William Jennings Bryan said in a recent speech:

"The honesty of the party's purpose is shown not merely by the platform or the speeches of its candidates and supporters, but by the character of the men who are entrusted with the party management. And if the Democratic party has not virtue enough to spew out those who traffic in politics, it does not deserve victory nor can it hope for it."

Bryan says those who traffic in politics must be spewed out, and that the good faith of the party must be shown by the character of the candidates.

There is a fully developed machine politician, a trafficker in politics, who has shown that he regards public office as a private graft.—Henderson Gleason (Dem.)

The state machine used the machinery of the party and the public patronage in such a way as to defeat Blackburn. It remains to be seen whether the party machinery and the patronage trough can be employed to defeat the will of the people this fall.—Henderson Gleason (Dem.)

The work of dismantling the machinery of the Dick Fowler continues, and the boat will soon be ready to be hauled out onto the ways for more extensive repairs.

False economy applied to the health may cost life. Cheap substitutes for Scott's Emulsion are foisted on the public every year. Don't buy them and trifle with your health. The genuine bears the label Scott's Emulsion and trade-mark of the man with the fish. All druggists 50c. and \$1.00.

BEAR GETS AWAY

BRUIN ESCAPES HUNTING DOGS IN LOUISIANA BRACKS.

President Was Stationed a Little Too Far Away From Quarry and Filled.

Stamboul, La., Oct. 17.—If President Roosevelt had been stationed in a few hundred feet further south than he was yesterday he would possibly have procured the bear he came to the Louisiana cane brakes to slay. Four dogs unattended by any of the hunters, after trailing the brakes unavailingly all day, struck a hot trail about 4 o'clock and within a thrice they were almost on the animal. He was aroused while feeding and with a snarl that was heard afar he darted off in a direction opposite the president's post. Campers say that thick was the jungle, bruin made rapid headway through it for a short distance he had to run to reach the lake. Arriving at the water's edge he unhesitatingly plunged in and was well away from the shore when the dogs arrived on the scene. Some of the hunters came up a short time afterward but too late to get a shot.

RIVER NEWS

River Stages.		
Cairo	15.9	0.1 rise
Chattanooga	2.2	0.3 fall
Cincinnati	13.4	0.9 fall
Evansville	11.6	0.2 fall
Florence	9.9	fall
Johnsonville	2.8	0.3 fall
Louisville	6.7	0.4 fall
Mt. Carmel	2.6	0.2 fall
Nashville	8.5	0.3 fall
Pittsburg	6.4	0.4 fall
St. Louis	11.5	0.1 fall
Paducah	7.9	0.7 rise

The slight rise in the river at this point continues and this morning the marks on the government gauge showed the state to be 7.9, a rise of .7 since yesterday.

The Lookout, a government dredge boat, came from the Tennessee yesterday for supplies and went back up the stream last night.

The Joe Fowler was in from Evansville yesterday. The John S. Hopkins, of the same line will be in and out today.

The Dunbar made her regular trip to Cairo yesterday.

The Nellie is in from the Tennessee with a tow of logs. The little steamer left today for another trip up that stream.

The Royal was in and out on time from Golconda today.

The great activity at Paducah ship building yards continues. All available workmen are employed. Already several steamers have been turned off finished while quite a number are in waiting for their turn.

The J. B. Richardson, which has been on the dry docks for some time, has been let off and the H. W. Buttort hauled out. A new hull was built under the Richardson in a remarkably short time.

The Walshaw, which has been undergoing repairs at the bank, has been hauled out on the ways, where repairs will be made to her hull.

The Hine Spot will leave today for the Tennessee river to bring in a tow of logs.

The Clyde got out for the Tennessee last night with an immense load of freight, shipped by Paducah wholesalers to merchants along the river.

The steamer Kentucky is due in the morning from the Tennessee river. She will stay here until Saturday before getting away on her return trip.

Cairo Bulletin says: "Congressmen Smith and Chapman, who represent this and the adjoining districts of Illinois in the national legislature, were on the steamer Dick Fowler on that memorable trip to Memphis, and it is understood that both these gentlemen will use their influence in behalf of Capt. Mark Cole, master of the Fowler, who has been cited to answer the charge of butting into one of the other boats of the fleet. Both the congressmen joined the other passengers on the boat in the resolutions declaring that Capt. Cole was careful and efficient in the management of the boat."

A resolution presented by Capt. J. Frank Tilly, of Pittsburg, Pa., and adopted at the recent session of the nation board of steam navigation at Norfolk, Va., urging an annual appropriation of \$25,000,000, that the work of river and harbor improvements may be carried on more expeditiously is being taken up by river men and civic organizations, and it is expected a monster petition will be presented to the rivers and harbors committee recommending this appropriation when congress meets in December.

Official Forecasts.

The Ohio at Evansville, will continue rising during the next 12 hours then fall for several days. At Mt. Vernon will continue rising during the next 24 to 36 hours, then fall for several days. At Paducah, will continue rising during the next two days, at Cairo will begin rising within 12 hour and rise for two days.

The Tennessee from Florence to below Johnsonville, will continue falling slowly during the next 36 hours. The Mississippi, from below St. Louis to above Cairo, will continue

HEAT

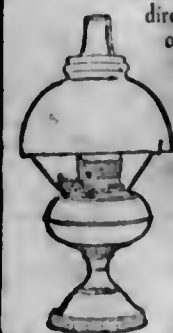

In the Right Place
At the Right Time

That's it—where you want it—when you want it—and if you only knew how easy it is to carry from room to room—and how much cheery comfort you can have with a

A Rock In the Baltic

By ROBERT BARR,

Author of
"The Triumphs of Eugene Valmont," "Tekla," "In the Midst of Alarms," "Speculations of John Steele," "The Victors," Etc.
Copyright, 1906, by Robert Barr.
By Arrangement with The Authors and Newspapers Association of New York.

(Continued from last issue.)

Jack heard the jailer growl, "This loaf of bread will last you for four days," but as this statement was made in Russian it conveyed no more meaning to the Englishman than had his own protest of a moment before.

The jailer and his assistant ever at the heels of the prince.

brought intelligence to the jailer. The door clanged shut, and there followed a dead silence.

"Now we ought to hear some good old British oaths," said Jack to himself, but the silence continued.

"Hello, Alan," cried Jack through the bars. "I said you would be nabbed if you didn't leave St. Petersburg. You'll pay attention to me next time I warn you."

There was no reply, and Jack became alarmed at the continued stillness. Then he heard his friend mutter:

"I'll be seeing visions by and by. I thought my brain was stronger than it is. I could have sworn that was Jack's voice."

Jack got suddenly and quietly down, turned on the switch and looked upon the table again, peering through. He knew that the strength had now become a river of fire and that it was seething to the ceiling an unholy, unearthly glow.

"Oh, damn it all!" growled Drummond, at which Jack roared with laughter.

"Alan," he shouted, "dash out that electric bulb from the creek and hold it aloft. Then you'll see where you are. I'm in the next cell—Jack Lamont, electrician and copper-smith; all orders promptly attended to; best of references and prices satisfactory."

"Jack, is that really you or have I gone demented?"

"Oh, you always were demented, Alan. But it is I right enough. Pick up the light and tell me what kind of a cell you've got."

"Horrible!" cried Drummond, surveying his situation. "Walls apparently of solid rock, and this runaway stream running across the floor."

"How are you furnished? Shelf of rock, stone bench?"

"No; there's a table, cot bed and a wooden chair."

"Why, my dear man, what are you growling about? They have given you one of the best rooms in the hotel. You're in the star chamber."

"Where in the name of heaven are we?"

"Didn't you recognize the rock from the deck of a steamer?"

"I never saw the deck of a steamer?"

"Then how did you come here?"

"I was writing a letter in my room when some one threw a sack over my head and tied me up in a bundle, so that it was a close shave I wasn't smothered. I was taken in what I suppose was a cab and hung into what I afterward learned was the hold of a steamer. When the ship stopped, I was carried like a sack of meal on some one's shoulder and unhampered before a gaunt specter in uniform in a room so dazzling with electric light that I could hardly see. That was a few minutes ago. Now I am here and starving. Where is this prison?"

"Like the mikado, as Kate would say, the authorities are bent on making the punishment fit the crime. You are in the Rock in the Baltic, which you fired at with that gun of yours. I told you those snave officials at St. Petersburg were playing with you."

"But why have they put you here, Jack?"

"Oh, I was like the good dog Tray, who associated with questionable company, I suppose, and thus got into trouble."

"I'm sorry."

"You ought to be glad. I'm going to get out of this place, and I don't believe you could break jail, unassisted in twenty years. Here is where science confronts brutality. I say, Drummond, bring your table over to the corner and mount it, then we can talk without shouting. Not much chance of any one outside hearing us even if we do clamor, but this is a damp situation, and loud talk is bad for the throat. Cut a slice of that brown bread and lunch with me. You'll find it not half bad, as you say in England, especially when you are hungry. Now," continued Jack as his friend stood opposite him and they found by experiment that their combined reach was not long enough to enable them to shake hands

through the bars, "now, while you are luxuriating in the menu of the Trozk-mouloff I'll give you a sketch of my plan for escape."

"Da," said Drummond.

"I happen to have with me a pair of bottles containing a substance which if dissolved in water and sprinkled on this rock will disintegrate it. It proves rather slow work, I must admit, but I intend to float in to you one of the bottles and the apparatus, so that you may help me on your side, which plan has the advantage of giving you useful occupation and allowing us to complete our task in half the time, like the engineers on each side of the Simplon tunnel."

"If there are bars in the lower water-course," objected Drummond, "won't you run a risk of breaking your bottle against them?"

"Not the slightest. I have just sent that much thinner electric lamp through, but in this case I'll just let up the bottle and squirt gun in my stocking, attach that to the wire, and the current will do the rest. You can unwind and I'll pull my stocking back again. If I dared wrench off a table leg, I could perhaps shove bottle and syringe through to you from here, but the material would come to a dead center in the middle of this tunnel unless I had a stick to push it within your reach."

"Very well; we'll work away until our excavation connects and we have made it of sufficient diameter for you to squeeze through. You are then in my cell. We put out our lights, and you conceal yourself behind the door, Jailer and man with the lantern come in. You must be very careful not to close the door, because if you once shove it shut we can't open it from this side, even though it is unlocked and the bolts drawn. It fits like wax and almost hermetically seals the room. You spring forward and deal the jailer with your fist one of your justly celebrated English knockdown blows, immediately after felling the man with the lantern. Knowing something of the weight of your blow, I take it that neither of the two men will recover consciousness until we have taken off their outer garments, secured revolvers and keys. Then we lock them in, you and I on the outside."

"My dear Jack, we don't need any tunnel to accomplish that. The first time these two men come into my room I can knock them down as easily here as there."

"I thought of that, and perhaps you could, but you must remember we have only one shot. If you made a mistake, if the jailer man bolted and fired his pistol and once closed the door he would not need to pause to lock it—why, we are done for. I should be perfectly helpless in the next room, and after the attempt they'd either drown us or put us into worse cells as far apart as possible."

"I don't think I should miss fire," said Drummond confidently. "Still I see the point and will obey orders."

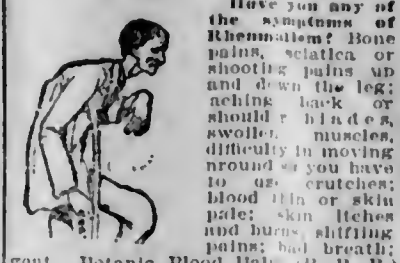

"My official position on the rock ever since I arrived has been that of electrician tutor in chief to the governor. I have started his dynamo working and have wired such portions of the place as were not already wired before. During these lessons I have kept my eyes open. So far as the prison is concerned, there are the governor, a sort of head clerk, the jailer and his assistant—four men, and that is all. The jailer's assistant appears to be the cook of the place, although the cooking done is of the most limited description. The black bread is brought from St. Petersburg, I think, as also thinned meat and soup, so the cuisine is on a

AT LAST A RHEUMATISM CURE

Aches and Pains in Side, Back or
Houses, Swollen Joints All
Disappear.

By Taking Botanic Blood Balm, Thousands of Rheumatism Sufferers Find Its Use.

LARGE SAMPLE FREE TO ALL.

scattered, lumbago, have you any of the symptoms of Rheumatism? Bone pains, sciatica or shooting pains up and down the leg; aching neck or shoulder; aching in the joints; swelling, muscular difficulty in moving around; or you have to use crutches; blood thin or skin pale; skin itches and burns; shifting pains; bad breath; Botanic Blood Balm (B. B. B.) will remove every symptom. Because B. B. B. sends a rich flowing flood of warm, rich, pure blood to the paralyzed nerves, bones and joints, giving warmth and strength where it is needed, and in this way making a perfect, lasting cure. Rheumatism in all its forms. B. B. B. imparts the blood, making it pure and rich and at the same time destroys the active poison in the blood which causes it. Rheumatism frequently causes Rheumatism. B. B. B. has made thousands of cures of rheumatism after all other medicines, liniments and doctors have failed to help or cure. Weak, inactive kidneys frequently cause Rheumatism. B. B. B. help or cure. Weak, inactive kidneys draining off all disease matter and all uric acid, so the urine flows freely and naturally.

BOTANIC BLOOD BALM, (B. B. B.) is pleasant and safe to take, composed of pure Botanic ingredients. SAMPLE SENT FREE BY DRUGGISTS or sent by express. At 51 PER LARGE BOTTLE with directions for home use. Sold in Paducah by R. W. Walker & Co., W. J. Gilbert, Lang Bros., Alvey & List.

somewhat limited scale."

"Do you mean to say that only these four men are in charge of the prison?"

"Practically so, but there is the governor as well. The soldiers live in a suit of rooms directly above us, and as near as I can form an opinion there are fourteen men and two officers. When a steamer arrives, they draft as many soldiers as are necessary, unload the boat, and then the families go upstairs again. The military section apparently holds little intercourse with the officials, whom they look upon as jailers. I should judge that the military officer in chief of the rock because when he found the governor's room it by electricity he demanded the same for his quarters. That's how I came to get upstairs. Now, these stairs are heavy oak doors top and bottom, and these doors possess steel bolts on both sides of them. It is thus possible for either the military authorities upstairs or the civil authorities to isolate themselves from the others. In case of a revolt among the soldiers the governor could lock them into their attic, and they would find great difficulty in getting out. Now, my plan of procedure is this: We will disarm jailer and assistant, take their keys, outside garments and caps. The jailer's tregery will fit you, and the other fellow's may do for me. Then we will lock them in here, and if we meet clerk or governor in the passages we will have these to overcome either or both before they are aware of the change. I'll go up the circular stair, left from the table the upper door and afterward bolt the lower door. Then we open all the cells and release the other prisoners. Escaped from the rock, get into the Danish fishing boat, keep clear of the two cannon that are up above us and sail for the Swedish coast. We can't miss it. We have only to travel west, and ultimately we are safe. There is only one danger, which is that we may make one attempt when the steamer is here, but we must chance that."

"Isn't there any way of finding out? Couldn't you pump the governor?"

"He is always very much on his guard and is a tactful man. The moment the tunnel is finished I shall question about some further electrical material, and then perhaps I may get a hint about the steamer. I imagine she comes irregularly, so the only safe plan would be for us to make our attempt just after she had departed."

"Would there be any chance of our finding a number of the military downstairs?"

"I don't think so. Now that they have their electric light they spend their time playing cards and drinking vodka."

"Very well, Jack; that scheme seems reasonably feasible. Now get through your material to me and issue your instructions."

(To be continued in next issue.)

ROGERS' LIVERWORT
TAR AND CANTHARUA

Williams, Mfg. Co., Proprs., Cleveland, O.

The men are few and wise who do not think they can prescribe for this poor old world without studying social medicine.

SALVATION ARMY

WANTS MONEY AND CLOTHING
FOR THE POOR.

Rescue and Relief Department Kept Busy—Men Made By Mrs. Meeker, of Local Corps.

As the weather becomes colder the Salvation Army rescue and relief department is becoming busier than ever. These workers believe in seeking those in distress and have found many pitiable and deplorable cases in their visits to the houses of the poor and needy. One feature of this work is the supply of proper food and medicine for the sick. Many Paducah physicians have rendered their services to the army in these cases, particularly in helping those who need temporary assistance around a rough corner in life. Some in all probability would resort to vice and crime rather than undergo the chagrin of becoming public charges or public recipients of charity.

"Many girls have gone into lives of shame," says Mrs. Captain Meeker of the Salvation Army, "because they were proud and refused to ask for help. If we can find such cases in time we are able by the grace of God and proper food and clothing to prevent open shame and hide a multitude of prospective sins."

The relief department of the Salvation Army is located in an humble part of town and is reaching out in all directions to save the lost, no matter how much it costs in effort or expense. The larger percentage of cases helped thus far have been satisfactory. In results. Any donations of clothing, food or money will be acceptable at this time.

The relief bureau is at 222 Tennessee street, new phone 1229. Mrs. Captain Meeker will be glad to send for garments, bed clothes or food. Large or small amounts will be used gratefully in the Master's service.

What's Coming to You.

What's the use to worry
Or to vex your soul
Lest the merry dealer
Raise the price of coal?
Better be complacent
Just because you may
Know he will for certain
Do it anyway.

What's the use to borrow
Trouble in advance,
Knowing it will hit you
When it gets a chance
Wait its grand arrival
To get your ruin;
Simple logic tells you
It is sure to come.

Nothing gained by fretting
Or by feeling blue;
Only makes you thinner
If reports are true.
Wait until misfortune
Hauds it to you straight;
You with such a prospect
Can afford to wait.

Might as well be joyful
And to sing a tune,
Knowing there is trouble
Coming pretty soon.
You can always figure
You will sure be hit
And from every quarter
Get the worst of it.

—Nashville American.

Card Knowledge.

The expert bridge player's little daughter was a model Sunday school scholar, according to Lippincott's. Toward the close of the year her teacher said: "Susie, if you continue to know your lessons so well you will have a good conduct card for every Sunday in the year."

"My!" said Susie. "That'll be a whole deck, won't it?"

She Was Exact.
It was at a Southern Indiana Chautauque where children over six and under twelve were expected to pay half of the full admission rate.

The lady with the well-grown child made her appearance at the turnstile and presented one ticket.

"Where's the ticket for the child?" asked the gate keeper, who could tell at a glance that the child was at least six.

"I've never had to pay before for her—I didn't have to pay last year, hocked the mother."

"Well, you know she's a year older now than she was last year," said the gate keeper, gently.

Certain perfumes aid in maintaining health by destroying disease germs. Of these thymol, lemon, mint, lavender, eucalyptus and attar of roses are the most valuable.

Death For Heretics, Says Good Old Doctor---Revival of Middle Ages

Philadelphia, Pa., Oct. 17.—The Dr. Robert M. Patterson, a minister of the Presbyterian church, who is well known in Albany, Chicago and Philadelphia, and who has lived in Paducah, a suburb of this city, since his retirement from the ministry several years ago, caused an uproar in the Presbytery that met here today by declaring that the death penalty should be inflicted upon all heretics, blasphemers and correspondents in all divorce cases.

Persons who sought out affiliates should be harshly dealt with by law, said Dr. Patterson, and the death penalty should be established as the punishment for sinners on women.

Dr. Patterson had been scheduled on the program of the Presbytery for a speech on John Calvin.

Wants Death for Many.

The first thing he said when he got up to speak was:

"If I had my way about it I would have an executioner called in to deal with all heretics and blasphemers. Burning at the stake would be too good for those who revile religion and take the Lord's name in vain. The growth of heresy is such today that nothing but measures like this can stop it."

"I would requisition the services of the executioner also for those despicable persons who make divorces necessary by their insidious machinations between husband and wife."

"And for those who, under the guise of an artistic temperament or uncontrollable fascination, take unto themselves afflictions, forsaking their lawful wives, I would have the law recommend harsh punishment. Execution also should be the punishment for attacks on women."

When Dr. Patterson had finished speaking the Rev. Dr. John Wheaton, the pastor of Mizpah Presbyterian church of Philadelphia, rose to declare that such pronouncements were too radical for expression in the present day.

Near Clash Over Views.

The Rev. R. C. McCook, formerly pastor of the Presbyterian tabernacle, got to his feet with some heat and declared that instead of being radical, Dr. Patterson was ultra-conservative. He had harke dhack to the thought of the middle ages, said Dr. McCook, and his ideals were those of the inquisitors in Spain and the anti-papal religionists of Germany.

"There is no man in the Presbyterian church like Dr. Patterson today," said Dr. McCook in conclusion. This roused Dr. Patterson's ire and he started to make a spirited reply. Others tried to speak at the same time, and the meeting was in an uproar. The moderator presiding pounded for order and announced that to preserve the peace of the meeting further discussion on Dr. Patterson's speech would not be allowed.

ARMY OF CUMBERLAND.

Met in Annual Session at Chattanooga—Thinning Ranks.

Chattanooga, Tenn., Oct. 17.—A small though dignified body of several hundred men filled the prettily decorated assembly hall of the Board House today at the opening of the annual reunion of the Society of the Army of the Cumberland. Death had since the last meeting, removed several prominent members of the society.

Gen. Gate P. Thurston, of Nashville, called the gathering to order and presided over the opening session, which was devoted to an exchange of greetings and the reading of the annual reports. This evening the annual oration will be delivered by Col. M. H. Elch, of Pueblo, Col., who was an inspector-general and fought at Chickamauga. The reunion will continue over tomorrow.

FONTANET IS HURRYING ITS VICTIMS THIS DAY.

Fontanet, Ind., Oct. 17.—Vice President Dupont, of the Dupont Powder company, arrived today, and after seeing that the work of making the residents comfortable was well under way, at once began an investigation of the cause of the disaster. Gov. Haley left town last night and probably will order another company of militia to Fontanet, to remain as necessary. Today the saddened town is hurrying its dead. Funerals were held in tents this morning as early as daylight.

PLANNING HIGH TIME.

Citizens of El Paso Make Up Big Fund for Demonstration.

Washington, Oct. 17.—Citizens of California, particularly of San Francisco, are making ready to give a royal reception to the great battleship fleet when it passes into Golden Gate next spring. The general committee on entertainment and reception has been formed, comprising every one of the great commercial organizations of the city, and an adequate supply of funds to defray the cost of entertainment.

A crank is a man who knows all about a subject which you know nothing about.

Some Shoe Factories

Some factories make heels and other parts of a shoe out of paper and you can't tell the difference between the paper and real leather---until you have worn the shoes.

But there are no paper shoes here. Honest leather, every scrap of it, as the display in our window shows conclusively.

All have had to measure up to our high standard of quality and down to our low standard of price.

Men's Shoes, \$2.00 to \$6.00

Ladies Shoes, \$1.50 to \$5.00

Children's Shoes, 50c to \$2.50

SCHOOL NEWS

This morning Mrs. George B. Hart entertained the High school with rendition of several piano numbers.

In order to increase interest among parents in school work, Supt. John A. Carnegie will contribute to The Sun articles bearing on school work. Each Monday an article, bearing on the subject of English in city schools. He will treat the matter in its many forms, and believes that parents will

become interested in the work and assist their children in this study at home.

Tomorrow morning the High school orchestra will play several numbers as a feature of the morning opening. It will be the first appearance of the orchestra this season, and hereafter semi-monthly concerts will be featured.

Miss Mamie Noble, who had been out of school two days on account of illness, resumed her duties this morning at Washington school.

Miss May Ellis, of the Franklin school, is ill today and Miss Clara Winston is acting as a substitute. Miss Winston is a member of the cadet class.

Balloon Races Postponed.

St. Louis, Oct. 17.—The weather conditions interfered with the plans of the two ballooning ships here to compete in the international cup races Monday and the trial ascents planned for today were postponed. Messrs. Gasnier and Leve, representing France, arrived today, leaving Paul Neckle, of the third German team, and Major H. B. Hersey, who will pilot the United States, the only pilots yet to come. Every balloon is being carefully guarded to make sure that there will be no repetition of the Santos Dumont affair, when the Brazilian's airship envelope was ripped before the races at the world's fair. It was learned that arrangements have been made by aero clubs of St. Louis and New York to patrol the shores of the Great Lakes Monday night when it is feared some of the aeroplans may drift over the lakes and be unable to cross.

Breaks World's Auto Record.

Birmingham, Oct. 17.—Christie Strang, a nephew of Walter Christie, lowered the world's record of one mile in an automobile for circular track, here today by covering the distance in 51.2-5 seconds. The previous record was held by the elder Christie, who went it in 52 seconds at Minneapolis, September 10.

HARRY E. PIXLER

WELL KNOWN LOCOMOTIVE ENGINEER IS DEAD.

For Many Years He Lived in Paducah and Funeral Will Be Here.

Mr. Harry E. Pixler, 40 years old, for years a resident of Paducah, died at 1:10 o'clock this morning at Perryville, Tenn., of stomach trouble after an illness of many weeks. News of his death will be received with much regret by his many Paducah friends.

He was an engineer on the Lexington and Perryville branch of the N. C. & St. L., and for 15 years ran out of Paducah. A little more than a year ago he was assigned to the Perryville branch, and had been running out of that city since. He was married and leaves a wife and three children. This morning Mr. and Mrs. Albert Berger, of South Eleventh street, left for Perryville to bring the body to Paducah for burial. No funeral arrangements will be made until the body reaches here, which will be at 8:10 o'clock tonight.

Thomas Ashby.

Thomas Ashby, 54 years old, a farmer, died this morning at 5 o'clock of a complication of diseases after an illness of several weeks. He came here from the county about one year ago and resided at 820 North Sixth street. He was married and leaves a wife and several children. The funeral will be conducted tomorrow morning at the residence. The burial will be in Oak Grove cemetery.

Gunderson of Grant Chosen.

Washington, D. C., Oct. 17.—The state department has designated Algernon Sartoris, of the District of Columbia, to be secretary of the legation at Montevideo. Mr. Sartoris is the grandson of President Grant.

Nine out of ten of the customers who loose might have been held by effective advertising. The tenth one, perhaps, nothing could influence.
